- Incident Response
- Adaptability
- Advance Microsoft Excel
- Microsoft Power BI
- Tableau
- Risk assessment/Management
- Compliance
- SQL
- Python for Data analysis

JUDITH CHISOM AMUKA

CYBERSECURITY INTERN

I am a dedicated and passionate cybersecurity enthusiast who has recently completed a comprehensive foundational course in cybersecurity. Equipped with a solid understanding of key security principles and technologies, I am eager to transition into a full-fledged cybersecurity role. With a strong commitment to safeguarding digital assets and data integrity, I am eager to contribute my skills and knowledge to protect organizations from cyber threats. My goal is to continue learning and growing in the cybersecurity field, and ultimately make a meaningful impact in ensuring a secure digital environment.

WORK EXPERIENCE

Cybersecurity trainee Ingryd academy Coursera, Lagos, Nigeria

December 2023 - June 2024

- As an aspiring cybersecurity professional, I underwent a comprehensive Cybersecurity foundation training with Coursera to build a strong theoretical foundation in the field. Building upon this knowledge, I further honed my skills through practical learning at Ingryd Academy. During my time at Ingryd Academy, I gained hands-on experience in utilizing smart consoles to effectively manage an organization's access control and Virtual Machines. Additionally, I developed proficiency in using Packet Tracer for network security, enhancing my ability to analyze, secure, and troubleshoot networks effectively. This practical experience has equipped me with the necessary skills to address real-world cybersecurity challenges and implement robust security measures to protect critical systems and data

Data Analyst Birotojob, Ajah, Nigeria

January 2022 - Current

- Managing master data, including creation, updates, and deletion • Managing users and user roles
- Provide quality assurance of imported data, working with quality assurance analysts if necessary
- Commissioning and decommissioning of data sets
- Processing confidential data and information according to guidelines
- Training end-users on new reports and dashboards
- Providing technical expertise in data storage structures, data mining, and data cleansing
- Preparation of company budget and collection of customer data using Microsoft Excel, Microsoft Power BI, SQL, and python • Conducting training for junior data analysts.

Freelance Data Analyst

Breetek, Ajah, Nigeria

January 2021 - October 2021

- Troubleshooting the reporting database environment and reports
- Evaluating changes and updates to source production systems
- Training end-users on new reports and dashboards
- Providing technical expertise in data storage structures, data mining, and data cleansing.

VOLUNTEER EXPERIENCE

ACCOMPLISHMENTS

- Improved client retention and reviews by successfully handling customer complaints and implementing monthly staff training. I achieved this by carrying out a detailed analysis of our client database with strict adherence to our company playbook. This demonstrated why we had a massive client loss in the past couple of months. With this data, I was able to implement incident control measures and integrate staff monthly training to ensure it doesn't happen again.

HOBBIES AND INTERESTS

- Learning new skill
- Research
- traveling
- experimenting new ideas

DRIVING LICENCE

- I have a valid driver's license and 5 years of driving experience
